

ACCENTURE PHILIPPINES: INTERNAL OPERATIONS & WORKPLACE POLICY

Document ID: ACN-PH-2026-v4.2

Effective Date: January 1, 2026

Applicability: All Full-Time, Part-Time, and Contractual Employees

Classification: Internal Restricted (For Testing Protocols Only)

SECTION 1: CODE OF CONDUCT & PROFESSIONALISM

1.1 Core Workplace Expectations

Accenture is committed to maintaining a professional, inclusive, and secure working environment. Employees must execute their duties with integrity, transparency, and respect for colleagues and client stakeholders. Standard operational hours are determined by project allocation; however, core operational availability for cross-functional collaboration is mandated between 10:00 AM and 3:00 PM PST.

1.2 Professional Attire Guide

While Accenture supports a modern, business-casual workspace environment, employees representing the company at client sites or participating in video-enabled external conferences must adhere to professional business attire.

- **Acceptable Business Casual:** Collared shirts, blouses, slacks, chinos, closed-toe shoes, and clean loafers.
- **Prohibited Apparel:** Apparel featuring offensive graphics, athletic gym clothing, beach sandals, torn denim, and excessively distressed garments are strictly forbidden within the office premises.

1.3 Confidentiality and Intellectual Property (IP)

All software architectures, source code segments, data workflows, corporate presentations, and client strategies developed during the course of employment remain the exclusive intellectual property of Accenture. Employees are strictly prohibited from exporting internal codebase repositories to personal GitHub accounts, external cloud storage drives, or unauthorized removable media devices.

SECTION 2: LEAVE ALLOCATION & COMPASSIONATE ABSENCE

2.1 Annual Leave Protocol (Vacation Leave)

Regular full-time employees accrue **fifteen (15) days of paid Vacation Leave (VL)** per calendar year, credited dynamically on a pro-rata monthly basis.

- **Filing Timeline:** Any vacation leave extending beyond two consecutive business days must be logged into the internal enterprise portal at least **five (5) business days in advance**.
- **Approval Chain:** Approvals are subject to project delivery schedules and must be vetted by the direct Team Lead or Project Manager. Unused leaves up to five (5) days can be carried over to the next fiscal year; any remainder beyond this threshold will be automatically forfeited.

2.2 Medical & Sick Leave Policy

Employees are granted **twelve (12) days of paid Sick Leave (SL)** annually to address personal illnesses, medical appointments, or physical rehabilitation.

- **Notification Window:** In cases of sudden illness, the employee must notify their immediate supervisor via corporate chat or email no later than **two (2) hours prior** to their scheduled shift start.
- **Medical Certification Rule:** For any sick leave exceeding **two (2) consecutive operational days**, the employee is strictly required to present a valid Medical Certificate signed by a licensed physician upon their return to work. Failure to submit this certification within 48 hours of return will result in the absence being classified as "Leave Without Pay" (LWOP).

2.3 Compassionate and Emergency Leave

Up to **three (3) days of non-accruable Emergency Leave** may be approved for critical household disruptions or urgent family emergencies. Additionally, five (5) days of Bereavement Leave are allocated in the event of the passing of an immediate family member (parents, siblings, spouse, or children).

SECTION 3: INFORMATION SECURITY & HARDWARE UTILITIES

3.1 Corporate Hardware Utilization

Accenture provisions standardized laptops, workspace monitors, and security peripherals to facilitate operational tasks. These assets are dedicated entirely to official business activities.

- **Software Constraints:** Installation of unapproved third-party software, peer-to-peer torrent clients, unauthorized IDE plugins, or cryptocurrency mining packages is strictly blocked by endpoint security protocols.
- **Modification Ban:** Employees must not alter the pre-installed corporate operating system configurations or bypass virtual private network (VPN) firewalls.

3.2 Network Security and Remote Work Guidelines

When accessing enterprise resources remotely, employees must exclusively utilize the company-provided secure VPN gateway.

- Public, unsecured Wi-Fi networks (such as those found in public cafes or transit hubs) must never be used without enabling multi-factor authentication (MFA) and corporate network shielding protocols.
- Laptop screens must remain unviewable to the public in shared spaces to prevent unauthorized exposure of proprietary client interfaces.

SECTION 4: PROGRESSIVE DISCIPLINARY ACTIONS

4.1 Breach Classifications

Violations of internal guidelines are processed through a structured framework managed by Human Resources:

1. **Minor Infractions:** Unexcused tardiness, minor dress code deviations, or casual non-compliance with operational check-ins.
2. **Major Infractions:** Unauthorized data sharing, consecutive unexcused absences (Awol) exceeding three days, or open insubordination.

4.2 Disciplinary Resolution Escalation

- **First Offense:** Documented Verbal Warning via the direct line manager, recorded in the local project tracking log.
- **Second Offense:** Official Written Warning issued by Human Resources, requiring a mandatory performance alignment meeting within 7 business days.
- **Third Offense:** Suspension of access privileges, formal internal inquiry, and potential termination of the employment contract depending on the gravity of the infraction.

End of Policy Document. *For questions or clarifications regarding these operational clauses, contact the HR Helpdesk at extension 4900 or email hr-compliance@accenture-mock.com.*
